

Global Virtual Reality Market 2015-2019 - Industry Analysis

“ Global Virtual Reality Market 2015-2019 - Industry Analysis ” the latest addition to MarketResearchReports.Biz industry research reports collection.

About virtual reality

Virtual reality is a technology that allows a user to interact with a three-dimensional, computer-

simulated environment. The main type of equipment used in virtual reality are visual devices, using either a computer screen or special stereoscopic displays; however, there are devices such as head-mounted display that provide sound for a wholesome experience. It is used in a wide variety of applications ranging from healthcare, gaming devices, public entertainment, prototype creation to military exercises.

A virtual reality system can be classified into the following:

Non-immersive virtual reality system

Semi-immersive virtual reality system

Immersive virtual reality system

Technavio's analysts forecast the global virtual reality market to grow at a CAGR of 96.09% over the period 2014-2019.
